#### INDEPENDENT AUDITORS' REPORT

Members of the Board Wayland Area Emergency Medical Services

We have audited the accompanying financial statements of the Wayland Area Emergency Medical Services (the Authority) as of February 28, 2007 and February 28, 2006 and for the years then ended, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Wayland Area Emergency Medical Services as of February 28, 2007 and February 28, 2006, and the respective changes in financial position and cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

The Authority has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the financial statements.

Sigfied Consell P.C.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Wayland Area Emergency Medical Services (the Authority) was established June 26, 1999, to jointly provide emergency medical services within the member municipalities in Allegan and Barry counties, Michigan. The Authority is comprised of ten units of government in Allegan and Barry counties. The Authority began operations as a government entity on October 1, 2002. The Authority replaces a predecessor not-for-profit corporation.

The accounting policies of the Authority conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles), as applicable to governments. The following is a summary of the more significant policies:

#### a) Reporting entity:

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these financial statements present the Authority. The criteria established by the GASB for determining the reporting entity includes oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included. The Authority has determined that no other outside agency meets the above criteria and, therefore, no other agency has been included as a blended or discretely-presented component unit in the Authority's financial statements. Also, the Authority is not a component unit of any other entity.

#### b) Basis of presentation:

The accounts of the Authority are organized on the basis of an enterprise fund. This fund is used to account for operations; (1) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

#### c) Basis of accounting:

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements.

The financial statements are reflected on the accrual basis of accounting. Its revenues are recognized when they are earned and its expenses are recognized when they are incurred. Unbilled receivables of the Authority are recorded at year end. The Authority has elected to follow 1) all GASB pronouncements and 2) Financial Accounting Standards Board (FASB) statements and interpretations, Accounting Principles Board (APB) opinions, and Accounting Research Bulletins issued on or before November 30, 1989, except those that conflict with a GASB pronouncement.

### Wayland Area Emergency Medical Services NOTES TO FINANCIAL STATEMENTS (Continued)

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

#### d) Charges for services:

Charges for services represent the estimated net realizable amounts from individuals, third-party payers, and others for services rendered. The Authority has agreements with third-party payers that provide for payments to the Authority at amounts different from its established rates. Payment arrangements include discounted charges. The Authority's ability to collect the amounts due (other than amounts due from third-party arrangements) is affected by the Authority's ongoing evaluation of its clients' credit worthiness.

#### e) Capital assets:

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated.

Depreciation of all exhaustible fixed assets used by the Authority is charged as an expense against its operations. Accumulated depreciation is reported on the Authority's statement of net assets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Building Equipment Vehicles

40 years 5 - 10 years 6 years

f) Compensated absences (vacation, sick, and compensatory leave):

The amount attributed to the Authority is charged to expenses and a corresponding liability. Subject to carry-over limits, employees receive one-half of unused sick leave and vacation pay annually, and one-half of unused compensatory time monthly.

#### NOTE 2 - CASH:

State statutes and the Authority's investment policy authorize the Authority to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations. The Authority's deposits are in accordance with statutory authority. At February 28, 2007, the Authority had deposits with a carrying amount of \$207,899. At February 28, 2006, the Authority has deposits with a carrying amount of \$200,403.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Authority will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by federal depository insurance and are uncollateralized. At February 28, 2007, \$84,889 of the Authority's bank balances of \$215,904 was exposed to custodial credit risk because it was uninsured and uncollateralized. At February 28, 2006, \$18,630 of the Authority's bank balances of \$210,276 was exposed to custodial credit risk because it was uninsured and uncollateralized.

### Wayland Area Emergency Medical Services NOTES TO FINANCIAL STATEMENTS (Continued)

#### NOTE 2 - CASH (continued)

The Authority believes that it is impractical to insure all bank deposits due to the amounts of the deposits and the limits of FDIC insurance. As a result, the Authority evaluates each financial institution with which it deposits funds and assesses the risk level of each institution. Only the institutions with an acceptable estimated risk level are used as depositories.

#### NOTE 3 - CAPITAL ASSETS:

Capital asset activity for the year ended February 28, 2007, was as follows:

|                                    | Beginning<br>balance |           | Increases |          |    |   | Ending<br>balance |           |

### Wayland Area Emergency Medical Services NOTES TO FINANCIAL STATEMENTS (Continued)

#### NOTE 4 - CLAIMS ARISING FROM RISKS OF LOSS:

The Authority is exposed to various risks of loss to general liability, property and casualty, and workers' compensation. The risks of loss arising from general liability up to \$5,000,000, building contents, workers' compensation, and casualty are managed through purchased commercial insurance.

The Authority is self-insured for any liability associated with its underground fuel storage tanks and has pledged the assets owned by the Authority in conjunction with the self-insurance certification.

### Members of the Board of Trustees Wayland Area Emergency Medical Service

In planning and performing our audit of the financial statements of the Wayland Area Emergency Medical Service as of and for the year ended February 28, 2007, in accordance with auditing standards generally accepted in the United States of America, we considered the Wayland Area Emergency Authority's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Our consideration of internal control included procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented, but it did not include procedures to test the operating effectiveness of controls, and accordingly, was not directed to discovering significant deficiencies in internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a deficiency in internal control that we consider to be a material weakness.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiency constitutes a material weakness.

The Authority does not have procedures in place to prepare financial statements in accordance with U.S. generally accepted accounting principles, including procedures to reconcile and adjust service revenue and associated receivable, changes in capital assets, and to present required financial statement disclosures.

This communication is intended solely for the information and use of the Board of Trustees of the Wayland Area Emergency Medical Service and the State of Michigan Department of Treasury and is not intended to be and should not be used by anyone other than these specified parties.
